The Daily Sentinel.

JOSIAH TURNER, Jr., EDITOR.

THE NEW YORK HERALD ON THE REPUBLICAN PARTY.

Now, what is the tendency of all these things? What will be the result of these revolutionary proceedings on the part of the radical republicans? We will say that we cannot conceal our apprehensions that they portend the most serious consequences to the country unless, by a speedy effort, General Grant rises to the exigencies of the occasion and realizes the magnitude of the issues involved. It is not the consideration of the distribution of a few paltry offices that impels these revolutionists in and out of the Senate to attempt to break down General Grant's administration.—They know that the President is not all to blame for the disturbance that has been created among republican politicians and their greedy followers by the appointments he has made or recommended. The republicans passed the Tenure of Office bill, which shackled his power in selecting the right men for the right places. They refused to repeal that offensive measure, and therefore they are justly held responsible for whatever injudicious appointments may have been made. We have seen where his nominations have been ignored and others substituted; and no doubt the curtain is yet to be raised upon instances of corruption that will shock the moral sense of our people from one end of the country to the other.

The fact has become patent that the republican party is the most corrupt that ever cursed our land. During the war its leaders fell upon the national treasury and the public credit like so many ravenous wolves. Their jobs and robberies in the way of army contracts, in the sale of rotten old hulks for transports, in the building of new war vessels that proved shells or abortions, and in everything connected with supplies, including provisions, clothing, forage, hospital stores, and so on to the end of the catalogue, for the use of the army and navy, were enough to appal any other people than the American. These depraved and hungry leaders, with appetites for the spoils of office still lingering in their insatiable maws, have now fastened upon the Senate of the United States, and, with an avariciousness that spurns all compromise, reason and control, demand that no appointment shall be made without their having a finger in the selection. In the homely phrase of a Western Senator, they are persistently "dingdonging" every member of that body; and, it is mortifying to acknowledge, they have in that body friends and confreres as corrupt as themselves, who are ready and are employed to do their bidding in making Indian treaties, allowing enormous grants of land for private purposes and engaging in other scandalous practices, besides encouraging fraudulent appointments to office. These Senators seem to think that they have a life tenure to their seats. The eighteen year old settlers are as fresh and blooming when the subject of spoils comes up as when they made their maiden speeches. They want to control everything, and with their outside millionnaire backers they manage to do so. They treat Grant as if he were a renegade, and they would let the government go to ruin rather than have their schemes of personal aggrandizement or their objects of a purely political character thwarted. They would let our diplomatic system go to wreck rather than not have foreign ministers of their own choosing.—They would let our finances go to the dogs rather than have them controlled by any others than those of their own set. They are always grasping for more, and when there is no more to grasp they would create public offices and public plunder jobs for the benefit of those interested in their gigantic Senatorial jobbing rings. Their pleas of retrenchment and reform are all tol-de rol. What they save to the government in a year by the removal of hundreds of office-holders would not cover the public robberies they sanction in the way of land grants and subsidies to private corporations in a single session, or by a single job in a single session. General Grant, unfortunately, seems to let them have their own way. This should not be.

From the Boston Advertiser.

THE RADICAL PRESS ON THE ARTICLE IN THE CHICAGO TRIBUNE.

The Chicago *Tribune*, in a recent issue, calls attention to a change which nearly two months' experience of the new Administration has wrought in public opinion.—No other Administration since the first had come into power with a firmer hold upon the confidence of the county. * * * The *Tribune* speaks strongly, but no one will suspect it of speaking carelessly, or with any other than a loyal purpose. The change to which it calls attention, and the manifest causes which made the change inevitable, have been more widely known and more earnestly talked about than the President and his personal advisers will ever be likely to understand. There are always enough to tell the king the good things the people say about him; but the friends who are willing to tell him where he has been mistaken, and what acts of his are calculated to impair his influence, and need to be amended, are unfortunately not so common.

[From the N. Y. Evening Post.]

What the people of the United States require most in the Federal administration are honesty, simplicity, and economy. We do not covet our neighbors' lands; we have no balance of power to maintain; we have no need of standing armies; we do not want to overreach or rob any one. If the Federal administration will rigorously collect the taxes, pay the interest on the debt, maintain peace and order where the Constitution and laws give it authority to do so, and avoid all interference whatever with the markets, industry, and foreign nations, it will pursue a most admirable policy, and achieve a great success; and to do all that requires no "statesmanship" at all. It is in minor matters that the President has made mistakes; and here he is amenable to censure. His good nature to Mr. Washburne, for instance, has caused a grievous public scandal. What the *Tribune* says on that head is just; and Grant would do well and retrieve an error if he would at once recall Mr. Washburne and send to Paris some capable man. Then again he has allowed himself to be worried by Congressmen into making too many removals. The pressure for office has been unprecedented, and it is not surprising that the President has not been able to resist it; but it was nevertheless a mistake to remove good and faithful public servants to make room for new men, as has been done in too many cases. Then, again, he has allowed "pressure" to persuade him to make some positively bad appointments. Such was that of Mr. Ashley to be Governor of Montana—a nomination which amazed the public and distressed the best friends of the President. Such was that of Mr. Sanford to Spain, and of General Sickles to the same place.

[From the Springfield (Mass.) Republican.]

The Chicago *Tribune* has taken the bull by the horns, and spoken out the suppressed feeling of many Republicans, in regard to Gen. Grant's administration.

"The BROOKLYN LIFE has made no half-way work of the adoption of this inestimable feature. It is noteworthy, in this connection, as a merited tribute to the excellent Company (Brooklyn Life,) which has so gallantly raised the standard of reform in Life Insurance, that we find in the whole list of existing Companies, few competitors which deserve so much credit in respect of economy of management, or care, skill and judgment in the selection of risks."—INS. THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

FRIDAY, MAY 7, 1869.

AN ACT IN RELATION TO PROCEEDINGS IN CONTEMPT.

Such is the title of an act which will be found in our paper to-day. The authority and respect for our judiciary tribunals have been very seriously impaired. We are not inclined to attribute it to the people or the press, but to the character of the Judiciary—their want of learning, dignity, and even sober deportment.

This act is aimed at the freedom of the press, and the liberty of speech, as always enjoyed by the people of this country, and guaranteed to them by the Constitution.—Until to-day we had no knowledge of the existance of such a law. We are, however, no stranger to the men who suggested the feeling which prompted the passage of it.

We heard three months ago of certain drunken Judges discussing the ways and means of silencing the press in its strictures upon their characters, qualifications and drunken deportment.

We call the attention of the press to the 7th section of the act, which says, "the publication of grossly inaccurate reports of the proceedings of any Court, may be furnished for contempt;" yes, and fined not to exceed 250 dollars and imprisoned not to exceed thirty days.

It will be remembered, by the readers of the *Sentinel*, that the Grand Jury of Orange presented Judge Tourgee and the whole Judiciary of the State, except the sterling and blessed old Judge, Mitchell. We so announced and published, not only the fact but the presentment, as signed by the Foreman and every member of the Grand Jury. Judge Tourgee, in a letter to the *Standard*, denied that any such presentment had been made, and boasted that if it had been he would have put the Grand Jury in jail. If this law had been in existence at the time, the Judge would have had nothing to do but to notify us that our publication of the proceedings of the Court, at Orange, was "grossly inaccurate," and under this law he could have sent us to jail for 30 days and fined us $250. Remember he is the witness. Judge and Jury in the case. What chance would we have had, and, yet, there was no inaccuracy in our report of the proceedings of the Court. The presentment is now in the Clerks office, in the old town of Hillsboro', and there it will remain forever, A rebuke to the false and corrupt, who have or may, by intrigue with negroes and corruption with carpet-baggers, win seats on the bench, where once sat Henderson, Taylor, Gaston, Badger, Ruffin, Manly and Battle.

ALAS, POOR PEACE!

Gen. Grant has said "let us have peace," Holden has reiterated the declaration, "let us have peace." Twelve days ago, seeing Cabe Harris, who occupies the Governor's palace, walk up street without his big stick, we thought peace had come.—But Cabe appears with the big stick again Such heavy timber is enough to break Cabe's constitution. He must desist or the Doctor must be sent for.

P. S.—Cabe is out to-day again, with his huge "red stick." When will we ever have peace!"

PRESIDENT GRANT AND HIS CABINET.

The whole political world seems to be agitated. The Republican party is breaking to pieces. Its corruption is so deep, so wide spread, so universal, that it begins to be offensive even to the torpid olfactories of such supporters of Grant as the New York *Sun* and *Herald*, and even to other papers of less intellectual cleverness and influence. Between the huge army of disappointed office-seekers, who are loudly blatant over their misfortunes, the mouthing sympathisers with Cuban revolutionists, the wild advocates of war who are ready to run a muck against the world generally, there are "sound and fury" in the air, but whether they will evenfuate in simply "signifying nothing" cannot be positively affirmed. At any rate amid the chaos and confusion, there seems to be working out a pretty general sentiment of disappointment as to the character of the men who compose the Cabinet of our President, and a very decided impression that the party that elected Grant is the most thoroughly corrupt that ever yet afflicted and cursed any land. The article from the New York *Herald* on our first page is well worthy of attention. We now propose to give two paragraphs from the same paper, which ought to induce the President to make still another change, and make his Cabinet what it ought to be.

When such a man as Rawlins is pronounced by so able a paper as the Chicago *Tribune*, the strongest man in the Cabinet, we may well conclude that it is a poor affair at best. But here is what the *Herald* says:

"It is evident that the men composing the President's Cabinet are ill-suited to their positions. None of them take hold of the great questions appertaining to their departments in a manner that indicates grasp of mind and originality in execution. We speak of these things for the benefit of the President himself. He requires men around him who have sufficient brains to administer the laws in all except extraordinary cases, which may require consultation and close executive attention. General Grant had made a mistake in supposing that civil government can be directed by military forms. The civil power is the reverse of the military. The former proceeds from the people to the centre—the mass governs and directs through its mouthpiece, the President; the military power is the centre, creating all action and shaping everything. It is with the military idea predominant and in keeping with his education and habits that General Grant came into office. The Cabinet was selected under this principle, and not having been accustomed or fitted to work in such a direction they already show signs of imbecility. The Secretary of the Treasury finds the financial problem too ponderous for the keeper of a country store or for addition in accordance with the old European book theories. He finds it impossible to run the American treasure box on European wheels.

We speak of the necessity of remodelling the Cabinet that President Grant may have around him good working men, who live with the times and understand the animating forces of our political existence. We know that the President enjoys himself in looking upon his fast horses rather than in the analysis of abstruse governmental questions. This and good assistants will enable him to last out his term of office.—General Grant is a man of very solid sense, and will readily see the necessity for abler Cabinet brains, not only for the reasons we have indicted, but for those which he himself gave in his inaugural address."

EDITORIAL NOTES AND GLEANINGS.

1. Anthony Trollope, the novelist, is too well known to require any introduction from us. Every body reads novels, and that too without discrimination. It is the fewest number who are governed by correct taste in this matter. But to Trollope. By the way, is he any kin to Mrs. Trollope the old lady who gave us Americans "fits" some forty or more years ago? But be that as it may, Anthony edits a Magazine, in which he publishes from his own prolific pen many things, divided of course into good, bad and indifferent. He formerly partook of some of old Mrs. Trollope's dislike of America and American people, and so expressed himself. He is evidently not improving in the catholicity of his taste and judgment if we may believe the following statement made by an English correspondent of the Chicago *Tribune*. He says:

"Mr. Anthony Trollope is not so smitten as he was with the virtues of the Democratic party in the States, and the criticism in his magazine this month upon Andrew Johnson, shows a little clearer appreciation of men and events. Mr. Johnson is described as a patriot, but utterly inefficacious to serve his country in that position in which it pleased his country to place him—a strong healthy, thick-skinned, burley, big-hearted man, who will probably go back to Tennessee, and once more stick over his door a board signifying that there lives and works Andrew Johnson, tailor, forgetting, in his simplicity, to add: 'Late President of the United States.'

"Mr. Forsyth, Q. C., an eminent barrister and scholar, who has recently visited America, writes a paper in *Good Words* of this month of his 'Impressions.' As to manners, he thinks the middle and lower classes carry their independence and curtness of reply too far, but rudeness is extremely rare. Of the manners of what is called society, he thinks it difficult to speak too highly. The general intelligence and versatility of mind which he noticed, equally surprised him.'

2. We presume among our readers there are some who are fond of the curious—who possess a certain antiquarian turn. In England some of the papers have a regular department headed, "Notes and Queries." This has been adopted by some of our best American papers. We give, then, the following for the benefit of all sympathizers with Mr. Jonathan Oldbuck; and if there be any who are no friends of that profoundly original creation, they may skip and read the latest news—for what follows will scarcely suit *their* taste.

"On Tick."—Some curiosity-seeker thus accounts for the origin of this phrase: "Tick for credit is a word at least as old as the 17th century, and is corrupted from ticket, as a trade-man's bill was formerly called; and the phrase was originally *on ticket*—i. e. things taken to be put into the bill. Sedley, in 'Mulbery Garden,' 1688, says:

"I confess my ticket was not good,'

and Oldham (Poems, 1668) has:

"Reduced to want, he in due time felt sick
Was fain to die and be interred on tick."

The statue, 16 Car. II., against gaming, enacts that 'if any person shall lose any sum of money so played for, exceeding the sum of £100, at any one time or meeting, upon ticket or credit,' etc."

3. We feel tempted to give another paragraph that will prove interesting to every lover of antique specimens, whether it be books or mere articles of *virtu*. Every generation has to have the history of the past told to them. The historian's art is to communicate the "dead past" in language calculated to instruct and please the living present. As time rolls on in some respects, there is an advancel wisdom—a wisdom resting upon curious explorations and discoveries. In science, in Biblical researches, in matters purely literary, there has been progress in some directions, and many curious things are now well understood that were hidden mysteries to a past generation.

The following interesting, and in some respects, important discoveries will not be unwelcome, we feel assured, to some readers of the *Sentinel*. We give daily such a variety, that those who fancy other reading, will not go unprovided for. But here is the account:

"One is the store of documents and works of art carried from Venetia and Lombardy in the sullen retirement of the Austrians, and at various times in their long misgovernment of the provinces, but which recently, in accordance with treaty provisions, they have returned to the Italian government. Among these, which it would require a column to enumerate, are the complete series of dispatches of Venetian ambassadors to the different courts of Europe during the last ten years of the Republic's existence; a thousand original parchments (some of them of the ninth and tenth centuries) which belonged to old suppressed religious corporations, &c. The other one is that of a chest belonging to the property of the former East India Company, and transferred to the crown, which has remained unexamined until recently.—The librarian has found that it contained nothing less than the library of Timour, collected by the Mogul in the course of his conquests. Among other treasures are documents of extraordinary value connected with the biography of Mohammed. This great discovery is undoubted. When these treasures are explored and the volumes are translated and published, which will soon be done, it is probable that a good deal of current history will have to be rewritten."

The steamer Japan sailed on Tuesday from San Francisco for Hong Kong, via Yokohama, with $1,334,000 in treasure.

SEC. 2. The punishment for contempt shall be by fine or imprisonment, or both in the discretion of the Court, the fine not to exceed two hundred and fifty dollars, and the imprisonment not to exceed thirty days.

PROCEEDINGS IN CONTEMPT.

SEC. 3. Contempt committed in the immediate view and presence of the Court may be punished summarily, but the Court shall cause the particulars of the offence to be specified on the record, and a copy of the same to be attached to every committal attachment or process in the nature of an execution founded on such judgment or order.

SEC. 4. Every Justice of the Peace, Judge of Probate, Referee, Commissioner, Clerk of the Superior Court, or Judge of the Superior, or Justice of the Supreme Court shall have power to punish for contempt while sitting for the trial of causes or engaged in official duties.

SEC. 6. Whenever the contempt shall not have been committed in the immediate presence of the Court, or so near as to interrupt its business, proceedings therupon shall be by an order directing the offender to appear, within reasonable time, and show cause why he should not be attached for contempt. At the time specified in the order, the person charged with the contempt may appear and answer, and, if he fail to appear and show good cause why he should not be attached for the contempt charged, he shall be punished as provided in section second of this act.

PROCEEDINGS AS FOR CONTEMPT TO ENFORCE CIVIL REMEDIES.

SEC. 7. Every Court of Record shall have power to punish as for contempt:

1. Any Clerk, Sheriff, Register, Solicitor, Attorney, Counsellor, Coroner, Constable, Referee, or any other person in any manner selected or appointed to perform any ministerial or judicial service for any neglect or violation of duty or any misconduct, by which the rights or remedies of any party in a cause or matter depending in such Court may be defeated, impaired, delayed or prejudiced for disobedience of any lawful order of any Court or Judge, or any deceit or abuse of any process or order of any such Court or Judge.

2. Parties to suits, attorneys, and all other persons for the non-payment of any sum of money ordered by such Court, in cases where execution cannot be awarded for the collection of the same.

3. All persons for assuming to be officers, attorneys or counsellors of the Court, and acting as such without authority, for rescuing any property or person which may be in custody of any officer, by virtue of any order or process of the Court, for unlawfully detaining any witness or party to any suit, while going to, remaining at, or returning from the Court where the same may be set for trial, or for the unlawful interference with the proceedings in any action.

4. All persons summoned as witnesses for refusing or neglecting to obey such summons to attend, be sworn or answer as such witness.

5. Parties summoned as jurors for improperly conversing with parties or others in relation to an action to be tried at such Court or receiving communications therefrom.

6. All inferior magistrates, officers and tribunals for disobedience of any lawful order of the Court or for proceeding in any matter or cause contrary to law, after the same shall have been removed from their jurisdiction.

7. All other cases where attachments and proceedings, as for contempt, have been heretofore adopted and practiced in Courts of Record in this State, to enforce the civil remedies or protect the rights of any party to an action.

SEC. 8. Proceedings as for contempt shall be prosecuted and carried on, as provided in other special proceedings.

SEC. 9. To sustain an action as for contempt, the act complained of must have been such as tended to defeat, impair, impede, prejudice the rights or remedies of a party to an action then pending in Court.

SEC. 10. This act shall be in force from and after its ratification.

Ratified this 10th day of April, A. D., 1869.

PEN AND INK SKETCHES OF THE UNIVERSITY OF NORTH CAROLINA, AS IT HAS BEEN.

DEDICATED TO THE PEOPLE OF THE STATE, AND TO THE ALUMNI OF THE UNIVERSITY.

NO. 5.

DR. HOOPER.

The Reverend William Hooper, L.L., D., is now the sole survivor of that group of earnest and accomplished teachers who surrounded Dr. Caldwell's Presidential chair, thirty-five or forty years ago.

He first entered the Faculty as Prof. of Languages. From this he retired for a few years, devoting himself more exclusively to the ministry. He returned to the University about the year 1825, as Professor of Rhetoric and Logic, which Chair he afterwards exchanged for that of Ancient Languages, and remained in this, till his final departure in 1838, when he removed to South Carolina, accepting a Professorship in her College at Columbia. Of late years he has resided with his children at Wilson, Edgecombe County, N. C.

WHAT WE MAY SAY OF HIM NOW.

Dr. Hooper is still living, (*sensu lato*,) and there is an absurd canon prevailing in letters, I believe, that we must not praise a man to his face, but wait till it cannot possibly afford him the slightest gratification before we offer a tribute of reverence and gratitude. Dr. Hooper, however, belongs rather to the past generation than the present, and at any rate an anonymous newspaper writer may step beyond the pale of conventionalities; superfluous as it may appear, to attempt to add anything to such a reputation, and insignificant though the memorialist be. It is impossible in any record of Dr. Hooper's cotemporaries to omit all mention of him, than whom no more finished and elegant scholar and writer has ever departed from Chapel Hill, no better exemplar as teacher and preacher, no finer Christian gentleman. There has always appeared to me something peculiarly *Athenian* in the turn of Dr. Hooper's mind, in the quality of his intellect. Acute, calm and penetrating, it was flavored with a most rare and delicate humor that would have held its own in the best days of Attic supremacy. His life, with all his rare gifts and high attainments, has been devoted to the good of his fellow-men. No sordid aims, or selfish ambition has ever characterized him. That genius, which would have secured him the highest honors of the forum or the Bar, has been consecrated to the Pulpit and the Academe. Eternity alone will fully reveal the good such a man does. My heart goes out to salute him, as I write of him. May it yet be years that we shall keep his venerable form in sight,—last of a circle whose manful endeavor has blessed the State, in the example they have set us, and in the result of their work. May it be yet years before he shall be called to rejoin his ancient comrades and make one of that "solemn troop and sweet society" above.

"Then all this earthly grossness quit,
Attired with stars they shall forever sit
Triumphing over Death, and Chance, and thee
O Time."

MRS HOOPER.

Dr. Hooper married Frances Pollock, daughter of Edward Jones, Esq., of Pittsboro. Mrs. Hooper died in the spring of 1863. She had beauty and grace and great amiability and kindness of heart. These gifts, with her gentle piety, her refined tastes, her love of flowers and the profusion of them she always cultivated around her, her love of painting and drawing, arts in which she excelled,—these set her memory in a lovely and gracious light among the ladies of her day. Mrs. Dr. Mitchell and Mrs. Dr. James Phillips are the only two left of that circle of lively and intellectual young women. They busied themselves with their flowers, with reading, with educating their children, with carrying on a Union Sunday School in the village school house, which was built by subscriptions from all denominations, and used by all in turn for weekly lectures and prayer meetings, and Sunday night. Mrs. Hooper and Mrs. Mitchell, and Mrs. Phillips, organized the first Sunday School in that part of the country, and carried it on successfully for many years. There are gray-haired citizens in Chapel Hill now who were among their first scholars. They held it first in Gerard Hall, where I happen to know that the shorter catechism *with proofs* was diligently required of us. If the youngsters of these degenerate days get the Shorter Catechism alone, it is regarded as a triumph.

TEACHING IN THOSE DAYS.

Thoroughness above all seemed to be the characteristic of teaching in school and church. Thoroughness and a strict adherence to the text book. What we got was in lumps of pure ore, and we had to dig it out for ourselves besides. The rod was freely used as an incentive to the "love of virtue, liberty and science." Dr. Hooper says, speaking of the Prep School attached to the University, "I can recollect some of my classmates, grown young men, on whose backs our teacher tried a blister-plaster, made of chinquapin bark, to quicken the torpor of the brain." The modern invention of spreading a small amount of gold over a very large surface, in the fashionable *Lectures*, was not then thought of. Teaching was close and laborious, and learning was not a flowery path. Aids there were none; text-books were few. Dr. Caldwell, Dr. Phillips and Dr. Mitchell had each to prepare their own text books for use in College. They all believed in "Self Help."

GERARD HALL.

Gerard Hall was a building of universal use and application in those early days.—There, as old inhabitants aver, Dr. Caldwell danced at Commencement Balls in the first years of the century. There I remember to have seen him baptize candidates for admission into the Church, and twice a year administer the Holy Communion. There all peripatetic ventriloquists, conjurers, harp players, and the Siamese Twins themselves, exhibited; and there were held for many years, all Commencement Exercises, the sessions of the two Literary Societies, and the like when the blue and the white ribbons faintly shadowed forth the opposing claims and rivalries of the representatives of the Di and Phi Societies. Ah! those rosettes and broad floating satin ribbons attached to the left breast. No gorgeous tinselled regalia of later times have ever had half the significance of these simple and tasteful badges.

It was not till many years after, that Clubs exercised their baneful influences on the fair and healthful emulation of the Literary Societies, and it began to be thought a higher honor to be, say, the Eta of the Pi, Pi, Pie Club, than to be junior debater before the Society, on Wednesday night of Commencement week.

A FALSE QUANTITY.

However, to be junior debater, according to the best of my recollection, sometimes conferred immortality of a wrong sort. As when one of our Di. Debaters, in the palmy days when Badger, and Haywood, and Ruffin, and Graham, and Manly, and Weldon Edwards, and Mebane, and Nash, and such like, were wont to honor themselves by "going up to Commencement," holding forth before his distinguished audience in the Ercles vein, (as often happened) apostrophized the ship that bore Napoleon to St. Helen's rocky shore, as the "*Bellip-Rophon*." Fortunately this was not before the English Parliament, where according to Sydney Smith, a false quantity at the start will ruin a man for life.

WALKER ANDERSON.

After Dr. Caldwell's health had begun to fail him, under repeated attacks of the agonizing disease that finally ended his life, he would have retired from his post, as fearing that he could not render full service for the salary attached to it; and accordingly tendered his resignation to the Trustees. That honorable body, however, refused to accept his resignation, but to relieve his labors and to secure him the rest and tranquility which were so desirable, they created an Adjunct Professorship to provide for his entire exemption from the work of teaching. Dr. Caldwell, himself, selected Walker Anderson, Esq., of Hillsboro', to fill this Professorship. Mr. Anderson was a highly accomplished and elegant man. His wife was a sister of Dr. Francis Hawks and had a full share of the beauty and genius which distinguished that remarkable family. They remained in Chapel Hill but a few years, removing to Florida, in 1836, after Dr. Caldwell's death. Mr. Anderson, there losing his fortune, applied himself to the study of the law, and soon rose to its highest honors, being at the time of his death Chief Justice of the State.

THE SENTINEL.

LOCAL DEPARTMENT.

FRIDAY, MAY 7, 1869.

THE ÆTNA.—This excellent Company is not only extremely liberal but is as reliable as it is possible for any Life Insurance Company to be. The General Agent for North Carolina and Virginia, South of the James, W. H. Crow, Esq., of this city, is pushing his Company with great vigor, and success. He has paid a good many policies in this State. The following notice we clip from the Central (Va.) *Presbyterian*, but was copied first from the *Wytheville Dispatch* of the 16th ult. The whole transaction is highly creditable to the liberality and promptness of the Company:

LIFE INSURANCE.—A short time before the sad accident which occasioned his death, Mr. Austin H. Moore, formerly of this place, made application to Ætna Life Insurance Company for a policy of insurance upon his life in the sum of *Five thousand dollars*. The application was accepted and the policy issued, but before the Agents had an opportunity of delivering it to him, he was suddenly taken away by death. On last Monday, the Agents of the Ætna came to Wytheville and paid to Mrs. Moore the Five Thousand Dollars secured by the provident forethought of her husband.

Such an illustration as this of the practical benefits of the system of Life Insurance, ought to awaken our citizens to the duty of making a similar provision for the future wants of those they love. To these desiring insurance, we can cordially recommend "The Ætna." It has assets of over *Twelve Million Dollars*, is one of the oldest, largest and most successful companies in the United States, and the same liberality displayed in its settlement of Mr. Moore's policy characterizes all its dealings. It is thoroughly reliable and affords insurance at the lowest rate compatible with safety and fair-dealing.

MEMORIAL ASSOCIATION.—The annual ceremony of decking with flowers the graves of our Confederate dead will take place at the Cemetery, on Monday, the 10th of May, at 4 P. M.

The address will be delivered by Major W. M. Robbins, of Salisbury, and the Rev. Mr. Hudson, of this city, will officiate as Chaplain.

Members of the Association and visitors are requested to meet at the Cemetery at the hour above designated.

S. A. PARTRIDGE,
Secretary L. M. A.

FINE SMOKING TOBACCO.—That was certainly very good Tobacco we last smoked. It is out Alas! Alas!

COLLECTOR FOR 6TH. DISTRICT.—Edward B. Fullings has been appointed by the President Collector for the 6th. District.

THE WEATHER is still unseasonably cold.—The cotton crop will suffer greatly as a consequence.

MOUNT VERNON.—The home of our immortal Washington is to be sold at auction on the 10th. of June. Virginia we hope will become the purchaser.

TRUE CATHOLICISM.—It is indeed a matter for special mention and gratulation that the Spanish Cortes has adopted the article in the Constitution proposed, guaranteeing freedom of religious worship. We gave the other day, an extract from the very remarkable speech of Castelar, which produced a tremendous effect upon the Cortes. The result was attributable to a great extent to his bold, innovating, Catholic views. The vote was 186 in favor of the adoption of the article to 40 against. A wonderful progress in the right direction.

AN EXPEDITION TO CUBA.

In our local columns will be found the full details of the sailing of a large steamer, supposed to be the Arago, from this port, with nearly a thousand armed men on board, to help the Cubans in their revolt against the Spanish power.

This is really startling news.

Everything was done openly. The volunteers went on board the steamship with their muskets over their shoulders, after having partaken of a dinner at a public hotel. There was no attempt made by the United States authorities to put a stop to the expedition, although the administration must have been aware of it, as relatives of some of the young men on board telegraphed to Secretary Fish to have the vessel stopped.

The United States authorities here excuse themselves on the ground that, as President Grant has as yet issued no neutrality proclamation, they are not supposed to know that any insurrection prevails in Cuba or anywhere else. Heretofore it has been the invariable practice of our Presidents, when any filibustering expedition was on foot, to promptly announce the intention of the administration to enforce the neutrality laws. That President Grant has so far neglected to do so is, to say the least, significant.

If other expeditions are allowed to depart in the same way as that which sailed in the Arago yesterday, a war with Spain cannot be very far distant.—*N. Y. World.*

MASSACHUSETTS PHILANTHROPY.—Virtuous, philanthropic Massachusetts, the home of Sumner, Phillips and Wilson, Massachusetts, which has shed so many and bitter tears for the imaginary and real sufferings of the Southern negro, who have done well had she saved some of her sympathy and charity for the poor of her own people.—Thousands of young girls and women are in a worse seridom in Boston to day than were ever the african slaves in the Carolinas.—Poor, destitute of proper means of an honest livelihood. Boston long the acknowledged center of New England radicalism, compels them to adopt lives of crime or eke out a miserable and short existence in rickety garrats or damp, unwholesome cellars, toiling beyond their strength, for the outrageously mean wages of twenty-five cents per day.—*Maine Standard.*

FEATS ON THE VELOCIPEDE.—The last sensation in velocipede riding was produced at the Boston velocipede rink last week, when Master John Reardon rode a velocipede with grooved wheels along a rope stretched from one end of the rink to the other, about twenty feet from the floor. In addition to this a trapeze was hung to the velocipede, and Mr. Harry M. Stevens performed a variety of feats upon it while the velocipede was moving along the rope. Two little girls, aged three and five years, rode velocipedes around the rink with the ease of experts.

Amasa Sprague, senior of the Senator's firm, is said to be a staunch Democrat.

STATE NEWS.

MARRIAGES AND DEEDS.—The Register for the county of Halifax, issued eleven marriage licenses, three of them whites and the others blacks, and registered thirty-five deeds, during the month of April.—*Roanoke News.*

LOOK OUT FOR HIM.—A man reached this place on Sunday night's train from Charlotte, professing to hail from Montgomery, Ala., and gulled some of the officials of the N. C. R. R., by passing as a mute, out of means.

His first tale was that he wished to get to Richmond, Va., where he had relatives; after arriving here, he said he wished to go to Raleigh, to attend School, and complete his education.

Said rascal appears to be very well educated, is a good scribe, but does not know even the rudiments of Deaf Mute language. He is about 25 years old, 5 feet 8 inches high, fair complexion, no beard, and has a boil or carbuncle on his neck.—He had on a dark coat, common checked pants and cap. After being detected here, he footed it towards Raleigh.—*Greensboro Patriot.*

NORTH CAROLINA REAL AND PERSONAL ESTATE AGENCY.—Mr. W. Whitaker, general agent for this Company, visited us yesterday, and we are pleased to be assured by him, that the success of this scheme to dispose of real and personal estate, is beyond all doubt. When once understood by the people, no one can object to it, as it is plain all property disposed of by this Company, brings it value, and the owners of the real estate *know*, that, by the ordinary mode of selling, property will not demand one-half its real value. We are glad, therefore, that this Company has been legalized by the Legislature, and that it is a success.—*New bern Journal of Commerce.*

FIRE—LOSS $20 000.—Yesterday morning a destructive fire occured in the suburbs of our city, resulting in the total destruction of the manufactory owned by the Cape Fear Fibre Company, and which for months had been in successful operation, manufacturing a superior quality of paper stock from cane.

The location of the large building is so well known that it is unnecessary to describe it.

The fire was the result of accident and first broke out about 4 o'clock, burning with a fierceness that at once announced total consummation ere it could be extinguished.

The workmen had commenced raising a head of steam preparatory to beginning the day's labor, and it is thought the spark must have escaped from a defect in one of the chimneys, and communicated to the fibre, immediately causing that light material to be one mass of flames. The alarm was promptly given, and the various firemen assembled at their engine houses, and were soon in motion.

About half an hour after the breaking out of the fire, the steam dome over the boilers bursted, and the explosion was tremendous, resounding to all parts of the city. One half remained stationary where it had been inserted in the brick work and was well secured with morter, while the other was blown to the distance of one hundred feet.—*Wil. Star.*

The ladies of the Episcopal Church at Goldsboro' will hold a festival on the 12th and 13th.

SUPERIOR COURT.—The abrupt adjournment of this Court, when there so many cases, on both the State and Civil Docket, that are now awaiting trial, has called forth free comment of the Bar. It was like the bursting of a shell, or flying of a rocket all over in a moment.

The cause of its untimely and sudden termination was that on Monday, the Judge received a recent law, passed by the last Legislature, and not before seen, which required, that, at the time the regular jury is drawn, in addition thereto eighteen men must be summoned to serve as a jury for the 2nd week of the term, and the original jury discharged. Accordingly on Monday morning the jury was discharged, and, as the Judge decided, that he had no power to call another, the Court was left without any means of trying an issue. This decision was, we think, in direct opposition to that given by our Supreme Court in the case of State vs. Owens, and devoid of reason or common sense. In consequence of this dictum, one capital case, and all the civil suits that could not be arranged by the attorneys, must await another term, unless a Special Court is called or other provision made.

The most important case that was tried last week was that of State vs. Jas. Fargo and Lewis Jones, for stealing two horses of Mr. Jenkins of this County. The case, however, that elicited more argument from the counsel pro and con, and the deeper sympathy of the community, was that of State vs. Reuben Deal, a young man, who, for the purpose, as he thought, of securing his rights, committed an act, which in the technical language of the Law was decided by this Court to be larceny, and judgment was pronounced accordingly, but from which the defendant has appealed to the Supreme Court.—*Tarboro Southerner.*

PAINFUL ACCIDENT.—The pleasant day spent yesterday by the children of the Baptist and Methodist churches, at their picnic at Riverside, was saddened by an accident that befel George Mitchel, a son of Mr. B. F. Mitchell.

During the afternoon some of the boys were riding on a hand-car, upon which little George attempted to jump while it was in motion. The car ran against him with great force, bruising his back badly and knocking him down, where he lay senseless until his frightened companions informed his father of the sad occurrence. Fortunately the car did not pass over his body, as the impetus threw him several feet from the track.—*Wil. Star.*

EIGHT.—After the sermon at Front Street Methodist Church on Sunday morning last, eight persons connected themselves with the Church, the rite of baptism was administered to one adult by the pastor, Rev. J. H. Daly; and the sacrament of the Lord's supper was then administered to the members of the Church.—*Ib.*

SERIOUS ACCIDENT.—A negro cabin on the farm of Mr. Reddin Williams, a few miles from this place, was burned last week and the lives of two little children lost.—The circumstances as reported to us as follows: The negro man who staid in the house had collected a pile of trash in his near the door. He set fire to piles and went off and when he came back the door was in flames and it was impossible to get in to save his children, who perished in the flames. We have also heard that the house caught from the inside, but however it happened, it seems evident that it was a pure accident or a piece of carelessness.

It was a total loss, nothing being taken from the house after it was found to be on flames.—*Tarboro Southerner.*

Rossini left an Italian copy of the Old Testament which had two hundred blank leaves at the end. Upon these the maestro had written metrical versions of some of the most beautiful of the psalms, for which he intended to compose music. PURITAN MANNERS.

One of the blessed results which the Radicals promised us from the destruction of the Constitution and the abolition of slavery was the amelioration of the manners of our public men. We were to have models of Christian deportment in both Houses of Congress when the manners of the Puritan were substituted for the manners of the plantation. Well. The Southern States have been enslaved to give freedom to the Southern slaves. Carpet-baggers sit in the seats once filled by a Calhoun, a Mangum, a Macon, a Berrien, and a King. A carpet bagger Senator from North Carolina, Puritan born and Puritan bred, announces his intention to inflict personal violence on a Senator from Rhode Island for words spoken in debate. A trooly loil Radical Senator from Tennessee is charged to his face by another trooly loil Radical Senator from Michigan with being a coward and liar, and this in executive session of the body to which they both belong! Is this the entertainment to which the American people were invited, and for the pleasure and profit of which they were bidden thank God that he had graciously permitted them to expend billions of their hard won wealth, hundreds of thousands of priceless human lives, and the heritage of peace and fraternal sympathy left to them by ancestors united in common perils, common hopes, common labors, and common triumph?—*N. Y. World.*

PRESIDENT GRANT'S INCOME.—Among the income tax returns published in Washington occurs the following: "U. S. Grant, $566." The tax on Gen. Grant's salary as an officer was, of course, deducted in the payment as with others in government service, and therefore does not figure in return.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have, and can show, thousands upon thousands of certificates of remarkable cures of the following complaints, but such cures are known in every neighborhood, and why should we publish them? Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion**, **Listlessness**, **Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache**, **Sick Headache**, **Jaundice** or **Green Sickness**, **Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism**, **Gout**, **Gravel**, **Palpitation of the Heart**, **Pain in the Side**, **Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. There are numerous cases where a purgative is required, which we cannot enumerate here, but they suggest themselves to everybody, and where the virtues of this *Pill* are known, the public no longer doubt what to employ.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men, it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that it is unnecessary to publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

LIFE INSURANCE COMPANY,

JANUARY 1ST., 1869.

Assets $10,462,531,75.

Amount of Income 6,227,071.

SURPLUS OVER LIABILITIES 2,675,999,48.

THE Ætna is the LEADING LIFE INSURANCE COMPANY in North Carolina.

Largest amount of Losses to Widows and Orphans!

The Largest Revenue to the States. And has by far the largest number when compared with 58 Companies reported officially by the Commissioners of New York and Massachusetts it will be seen that the Ætna ranks as one of the first Companies of the Continent. But two of the fifty-eight Companies permitted to do business in New York and Massachusetts had so large an income for the year 1868; but two had so large a number of Policies in force, but one among all those incorporated under the laws of the State of New York had so small a per centage of Expense to Income during the year 1868.

Its expenses are lower than most Companies', and consequently its ability to make and pay liberal dividends to the insured is greater than that of most other Companies. It is one of the great Companies of the land in Income, in Assets, in Number of Policies, in Amount Insured, in Solidity and Strength, in Soundness, Cheapness, Promptness, and Success. Persons contemplating this mode of investment in the future as in the past would do well to examine the claims of all and take a policy accordingly.

TRUE TO THE GRAY.

BY PEARL RIVERS.

I cannot listen to your words,
The land is long and wide;
Go seek some happy Northern girl
To be your loving bride.

My brothers they were soldiers—
The youngest of the three
Was slain while fighting by the side
Of gallant Pitzhugh Lee.

They left his body on the field,
(Your side the day had won)
A soldier spurned him with his foot,
You might have been the one.

My lover was a soldier,
He belonged to Gordon's band;
A sabre pierced his gallant heart,
Yours might have been the hand.

He reeled and fell, but was not dead,
A horseman spurred his steed,
And trampled on the dying brain,
You may have done the deed.

I hold no hatred in my heart,
No cold, unrighteous pride,
For many a gallant soldier fought
Upon the other side.

But still I cannot kiss the hand
That smote my country sore
Nor love the foes that trampled down
The colors that she bore.

Between my heart and yours there rolls
A deep and crimson tide—
My brother's and my lover's blood
Forbid me be your bride.

The girls who loved the boys in gray,
The girls to country true,
May ne'er in wedlock give their hand
To those who wore the blue.

WASHING COMPOUND.
Patented Sept. 22, 1868.
REASONS FOR PREFERING THIS SOAP.
The Patentee claims for this Soap the following advantages which are clearly set forth in the Letters Patent, to-wit:
First, it can be manufactured at less than half the cost of any soap ever produced.
Secondly, it may be used successfully in any kind of water—cold or hot, hard or soft.
Thirdly, it so modifies the action of boiling water on woollen goods that their fibres do not contract under its influence, and your woollen garment is as large after boiling as before.
Fourth, it does not decompose the colors of goods, and your prints and stripes are as brilliant after washing as before.
Fifth, the goods do not require any rubbing or patent washing machine—all that is necessary is a few minutes boiling and a good rinsing.

LIFE INSURANCE.

NATIONAL

LIFE INSURANCE COMPANY,
OF THE
UNITED STATES OF AMERICA,
WASHINGTON, D. C.

Chartered by Special Act of Congress, Approved July 25th, 1868.

CASH CAPITAL,
$1,000,000,
PAID IN FULL.

It is no longer a question with any man, who tenderly loves his wife and children, who considers how helpless would be their condition in case of his *death*, as to the duty of taking out a LIFE POLICY, but as to which Company he shall pay his money.

If he reflects a moment he will conclude to patronize the Company which shows the greatest degree of vitality, which extends its business over the largest area, which is a Home Company in every locality; which furnishes insurance at the least cost; which issues no policies that are forfeitable should he be unable next year, or any subsequent year to pay his renewal; and which is *undoubtedly* able to meet ALL ITS PROMISES.

With these feelings and views, he looks over the newspapers, and, by the time he gets through reading the advertisements of Mutual or Mixed Companies, he finds his mind so fuddled that he is at a loss where to go or what to do. He can not comprehend one-half that is written, and concludes that none but ACTUARIES, who are familiar with the principles upon which Life Insurance is based can comprehend or explain anything about dividends and his liability for notes given in part payment of premiums. In his dilemma, he looks into the plan adopted by the

NATIONAL
LIFE INSURANCE COMPANY,
U. S. A.,

and finds just what he wants:

An ALL-CASH PLAN, reduced to the LOWEST MINIMUM Rate, like any commodity in Market, so much Insurance for so much Money. No notes to give; no interest to pay; no anxiety about Assessments; no apprehension of his Policy being forfeited next year if he does not pay his annual Renewal; and the RATES so much LOWER than other Companies, that he realizes a larger Dividend, IN ADVANCE, than other Companies can pay him in the future.

He finds that, instead of this UNCERTAIN PROMISE, and present high rate, that the

NATIONAL

presents a certain and definite sum for a much lower rate, and puts up its paid up Capital of

$1,000,000

as a guarantee fund, that its contracts will be fulfilled, and, like thousands of others, cheerfully calls on their Agent to make his application for a Policy. Hence the unprecedented and most wonderful success of the NATIONAL, as contrasted with the older and Mutual Companies.

The Company issued its first policy on the 1st of August, 1868, and up to March 1st, 1869, it had issued 3,582 policies.

Amount insured,	$10,005,550.00
Total Premiums,	320,117.03

The whole number issued by the Connecticut Mutual in the first year of its existence was 892

By the Mutual Benefit of New Jersey,	692
" New England Mutual,	343
" Phœnix Mutual,	335
" Massachusetts Mutual,	312
" Equitable of New York,	277

The Mutual Life, of New York, in the first year of its existence, only issued 470 policies.
In its 10th year, $1,260 "
And in its 20th year, 2,342 "
this latter being 600 *less* than was issued by the NATIONAL in its first seven months.

NEW ARRANGEMENT.

The RALEIGH SENTINEL having passed under the Editorial management of the undersigned, it will, from the present date, be conducted by him.

CAUTION! WE desire to warn the public against the impositions practiced upon them, as they are the losers thereby. It will be found, upon comparison, that Lorillard's Snuff is "far ahead" of all others, being made of the best stock, after an original and secret process known only to ourselves, besides possessing great age, strength and pungency, and is warranted not to contain any dangerous or deleterious substances, which cannot be said of many worthless articles put on sale by others. The best is the cheapest in the end. A circular will always be mailed on application. In ordering please specify if Salt Snuff (High Toast,) or Fresh Snuff (Extra Scotch) is desired.

We paid the State near Seven Hundred Thousand Dollars for her interest in this Road—thereby saving the people from Taxation for all time to come $40,000 per year; and we unhesitatingly declare that we can and will give more dispatch to all points, North and South, than any other Line.

NEW METHOD OF WASHING CLOTHES
WITHOUT LABOR.
THE AUTOMATIC
CLOTHES WASHER AND BOILER.
THIS BOILER IS MOST EFFECTUAL, reliable and universally recommended. It can be used on any Stove or Range, in any boiler, and the low PRICE of the whole places it within the reach of every family.
This Boiler operates upon purely philosophical principles, is self-acting, and dispenses with labor and the wear of the clothes.
The hot suds and steam, by the action of heat, are driven up through tubes, poured upon the clothes, and forced through the fabric with astonishing rapidity, cleansing all articles, from the finest lawn to the bed-ticket. For Flannels it is invaluable, as it does not full them as in the old process of rubbing and pressing.
The time required for cleansing a boiler full of clothes is twenty to thirty minutes, and nearly three hundred gallons of boiling suds are forced through the fabric, thoroughly loosening and eradicating the dirt WITHOUT LABOR or friction.—A thorough rinsing finishes the process
Washing day will no longer be a terror and dread to housewives. The cost of the Boiler will soon be restored in the SAVING OF TIME AND LABOR, and the great saving in the wear of clothes.
The great value of this invention appears so clear, and appeals so directly to common sense, that we have deemed it unnecessary to accompany its introduction with numerous letters of approval, &c.
No invention has met with such ready sale and given such satisfaction. Call at DOUGEE & BROTHER'S, and see its wonderful operations.—We have the exclusive right to sell and manufacture in the state.
